

Chicagoland Professional Photographers Association

Pat Wadecki: “The Nature Photographer’s Quest for Impact”

CPPA is proud to present Pat Wadecki in a program aimed at searching for and understanding light, finding exciting subjects and composing them creatively, using filters and a variety of lenses, to create dynamic images. Pat will take you on the journey which changed her from a hobbyist into a seasoned nature photographer whose work succeeds in capturing the impact that her soul feels as she explores the awesome natural areas and subjects throughout the USA.
